EXTENSIS PAGETOOLS

Adobe PageMaker, more powerful than ever before.

Extensis™ PageTools™ is a powerful set of productivity plug-ins that make Adobe PageMaker® work faster, easier and more efficiently than ever before.

Whether you use Mac or Windows, PageTools' robust feature set gives you the functionality needed to produce more in less time. PageBars puts hundreds of PageMaker commands a mouse click away. PageType lets you apply character styles to selected text. Place crop and registration marks around selected objects with PageMarks. With PageScaler scale multiple objects with text and burn through work that normally takes hours to complete. With PageTools' diverse set of desktop publishing plug-ins, making page layouts will never be the same. Imagine, working less while producing more.

To order, or for more information, contact your reseller today or call us at **(800)796-9798 or (503) 274-2020.** Visit http://www.extensis.com/ for the latest PageTools information.

- **Slash time using hundreds of commands from multiple, customizable toolbars that can be accessed from embedded or floating palettes.**
- **Quickly apply character styles to selected text without affecting the entire paragraph.**
- **Automatically resize multiple selected objects in one step. Scale objects by any percentage, including text within text blocks and frames, graphics and line widths.**
- **Easily preview and navigate other pages without leaving your current page.**
- **Instantly add, delete or duplicate all types of object and column guides.**

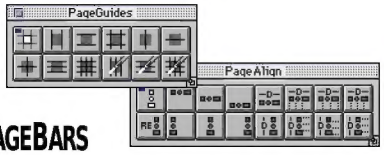
Easier with PageType
Life is full of schedules, deadlines and people breathing down your neck. Wouldn't it be easier on everyone if your page layout software worked as fast as you do?
PageTools 2.0 turns on the juice with powerful plug-ins for Adobe PageMaker.
Resize Multiple objects and text in just one step, print non-consecutive pages at once and instantly access hundreds of commands with a single click of the mouse.
PageType quickly applies character styles to selected text, without affecting the entire paragraph.
PageType
Futura 12pt Cond 70%
Futura 10 N body
GillsBoCo 16/12,65%
HelvBold 11pt Red
HelvBoCo 14pt Red
Times 10pt B Iheader
Times 9.5pt N body

PAGETYPE

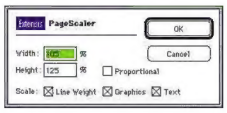
Automatically apply character styles to selected text without affecting paragraph styles.



PAGEBARS

Access hundreds of PageMaker and PageTools commands from customized toolbars that can be embedded to your screen's edges or floating palettes.

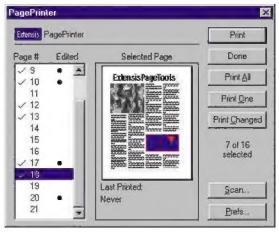
Scale text within text blocks and frames



PAGESCALER

Instantly scale multiple objects with options for graphics, lines, and text, including text within blocks and frames.

Scale text within text blocks and frames



PAGEPRINTER

Preview each page of your document before printing. Scan the publication for edited pages and print only those pages.

PAGEALIGN — Align and distribute multiple objects without using guides or rulers.

PAGECAPS — Change text to ALL CAPS, Title Caps, Sentence caps, lowercase, or RaNdOm CaPS. Use an exception list for custom words (like PageMaker).

PAGECOLOR — Change the color of lines, ovals, polygons, rectangles and text; selectively or all at once.

PAGECOUNTER — Count the number of characters, words, lines and paragraphs of any selection in your publication.

PAGEGLOSSARY (Mac only) — Enter commonly used text and graphics in your document with or without formatting.

PAGEGUIDES — Add, delete or duplicate all types of object and column guides.

PAGEMARKS — Draw crop marks and registration marks anywhere on your page.

PAGEMOVER — Move objects from page to page without leaving the page you are working on.

PAGEPREVIEW — Display previews of the first 5 pages of publications in the Open dialog box.

PAGERULERS (Mac only) — Place up to 40 floating horizontal and vertical rulers that snap to selected objects.

PAGESCRIPTS (Windows only) — Turn scripts that automate repetitive tasks into buttons on a toolbar giving you instant access to the scripts you use most.

PAGETABS (Mac only) — Quickly record and apply tab settings to selected paragraphs without affecting your paragraph style; ideal for working with tables and figures.

PAGETHUMB — Preview and navigate other pages without leaving your current page.

PAGETIPS — Display a "tip-of-the-day" each time you launch PageMaker. Written by *Adobe Magazine* columnist and *Real World PageMaker* author, Olav Martin Kvern.

PAGEZOOM (Mac only) — Magnify any part of a page up to 800% from a floating window.
